

Automated Distributor Sales Reporting

From PDF chaos to accurate SSR in minutes

Prepared for: Medicronis

Prepared by: MITRIXS — Abid Ali

Date: [Meeting Date]

The Problem Today

- 48+ distributors send sales data as PDF files in inconsistent formats
- One employee spends all day, every day on manual PDF processing
- SSR and management reports delayed until manual entry is complete
- High error risk and no centralized sales view

What We Demonstrated (Trial Proof)

PDF processing: Manual all day → [X] minutes per batch

SSR generation: After manual entry → Automated after upload

Product matching: Manual → [X]% auto-matched

Formats tested: [X] of [Y] PDFs successful

User quote: "[Insert feedback from daily user]"

Proposed Solution — Phase 1

Distributor PDFs → Extract → Match products → SSR & reports

Human review only for exceptions

Upload PDFs · OCR for scanned docs · Product master mapping

SSR in existing format · Excel/PDF export · Basic dashboard

Works alongside current sales software

Phase 1 Scope

In scope (6–8 weeks): Auth, distributor/product master, PDF processing, matching + review, SSR, exports, dashboard, audit trail

Out of scope: Inventory, procurement, finance, HR, ERP replacement

Rollout Plan

✓ Discovery + POC + Trial demo — Done

Week 1–2: Requirements, product master, top 10 templates

Week 3–6: Core platform and SSR workflow

Week 7–8: UAT and go-live

Post go-live: 2–4 distributor templates per week

Business Case / ROI

Current: ~176 staff hours/month on PDF/SSR processing

Target: <20 hrs/month (exception review only)

Time recovered: ~150+ hrs/month

Same-day SSR vs multi-day delay today

Investment & Commercial Terms

Kickoff (30%): Signed scope, access, samples — [Amount]

Core engine (40%): Upload, extract, match, review — [Amount]

Go-live (30%): SSR production, [X] templates — [Amount]

Total Phase 1: [Total Amount]

Success Metrics

≥90% extraction accuracy on digital PDFs
≥85% product auto-match rate
≥80% reduction in manual data entry hours
10–15 distributor templates at go-live
Review at 30 / 60 / 90 days

Recommended Decision & Next Steps

1. Approve Phase 1 scope & commercial terms
2. Nominate project sponsor + UAT contact
3. Provide product master + remaining PDF samples
4. Kickoff within [X] days of signing
